jQuery UI

jQuery UI simplifies the life, the steps to copy the code are different, in these slides a fast and sure method will be shown

1st step: go to <http://jqueryui.com>

2nd step: choose the effect or the widgets (in this example Accordion)

3rd step: click on view source

jQuery UI

4th step: copy the code and pay attention in HEAD, you must insert HTTP://
in the links.

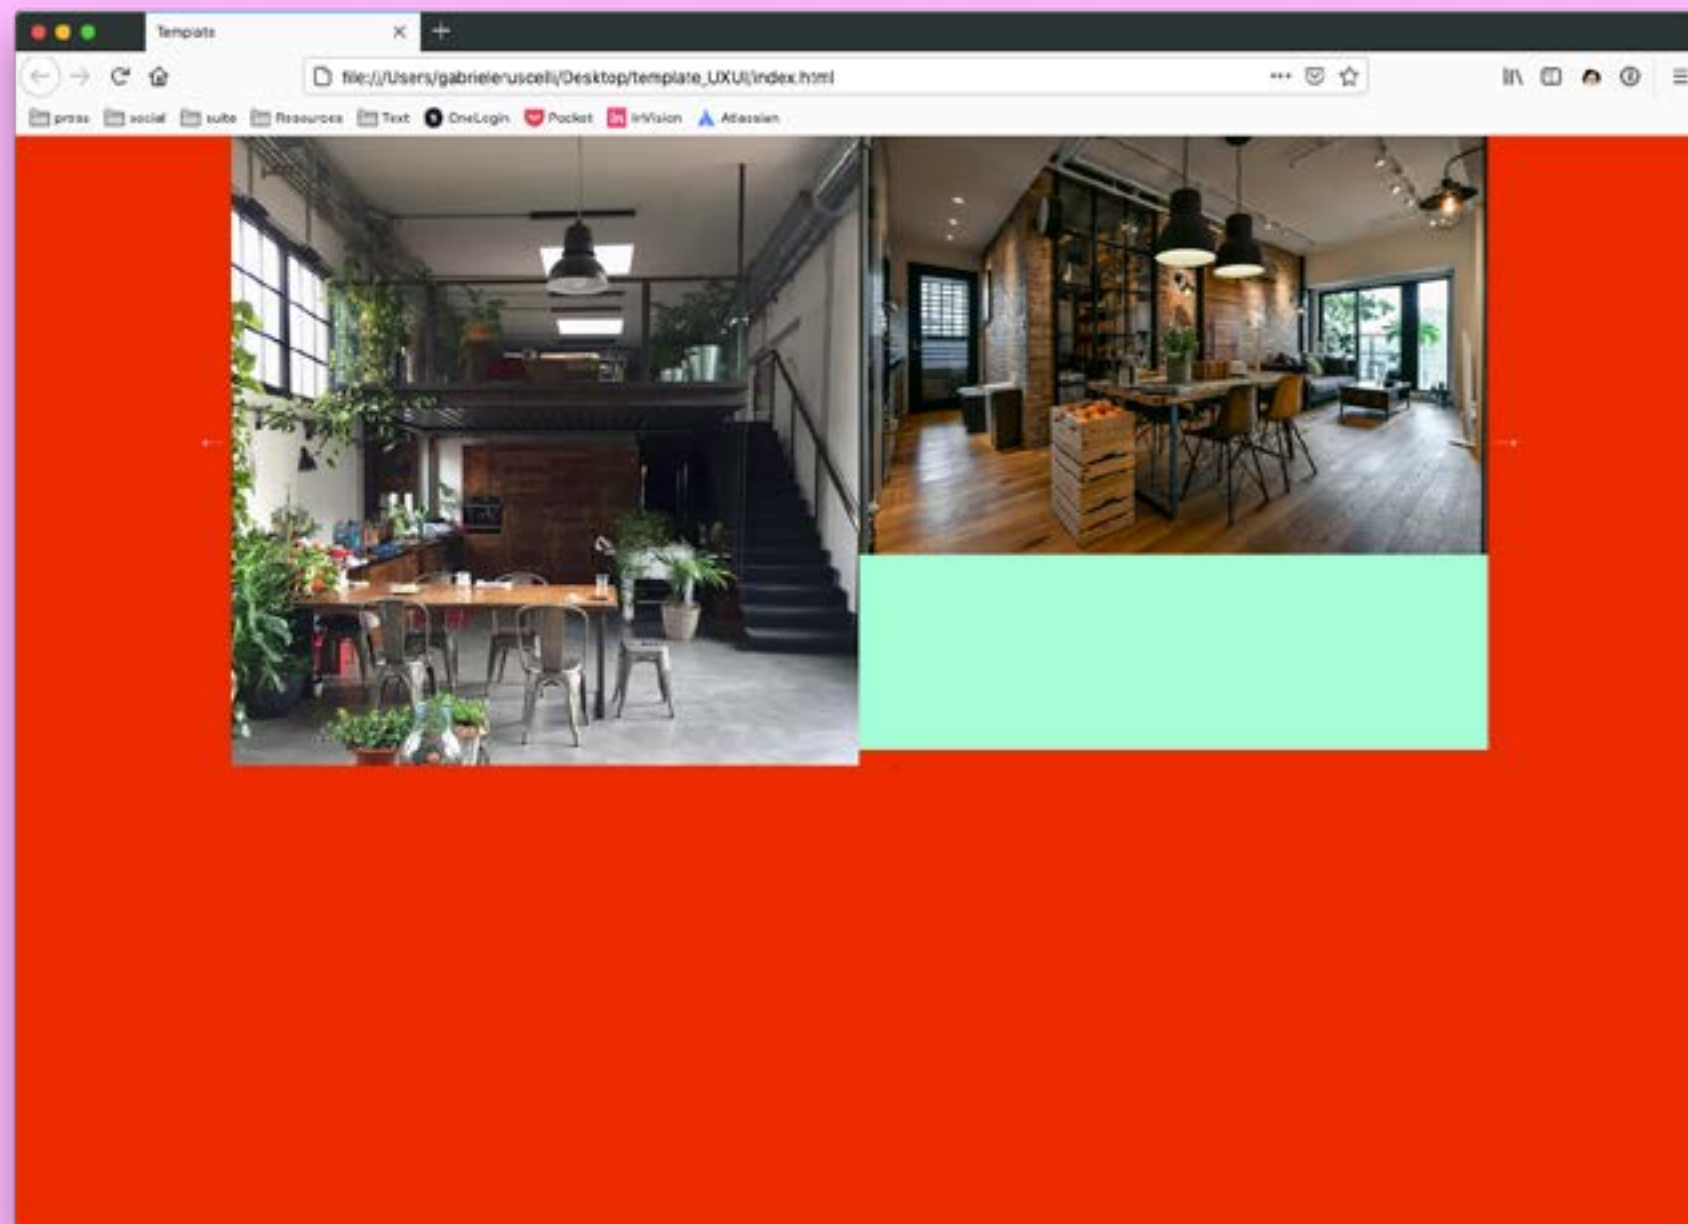

5th step create the css to customize the accordion.

```
<html lang="en">
<head>
  <meta charset="utf-8">
  <title>jQuery UI Accordion - Default functionality</title>
  <link rel="stylesheet" href="//code.jquery.com/ui/1.11.4/themes/smoothness/jquery-ui.css">
  <script src="//code.jquery.com/jquery-1.10.2.js"></script>
  <script src="//code.jquery.com/ui/1.11.4/jquery-ui.js"></script>
  <link rel="stylesheet" href="/resources/demos/style.css">
  <script>
    $(function() {
      $( "#accordion" ).accordion();
    });
  </script>
</head>
<body>
```

Tutorial

Integrate with the teacher the SLICK plugin

<http://kenwheeler.github.io/slick/>

Exercise

Integrate Slick within the responsive layout you created earlier

Software development tool
used by teams.
